## PRESS RELEASE

### FOR IMMEDIATE RELEASE

# Satori Energy named 2020-2021 ABC of the Year

CHICAGO – January 29, 2021 – The Energy Professionals Association (TEPA) presented its 2020-2021 awards on January 21, 2021. Satori Energy has been named the recipient of the 2020-2021 ABC of the Year award. This award is presented annually to the most outstanding Aggregator, Broker, or Consultant in the retail energy community. TEPA’s supplier members vote to determine the ABC of the Year based on several metrics such as high-quality customer service, contract negotiations, and ethical business practices. This is the third year Satori Energy was recognized as the ABC of the Year by TEPA (2015, 2017). Satori Energy is the only firm in the industry to have earned the award multiple times.

Satori Energy President David C. Wiers commented, “It is an honor to receive this award. Satori Energy has continued to invest in our team and in our business each and every year, further committing to our core values of doing right by the customer and treating our suppliers as partners. Our entire team takes great pride in how we represent ourselves and our clients within this industry and it is very rewarding to be recognized for that.”

#### **About Satori Energy**

Satori Energy is a privately-held full-service energy consulting firm based in Chicago, Illinois, that proudly serves over 55,000 commercial and residential accounts across the United States, Canada, and Mexico. Our client-centric approach and relationships with over 65 of the top retail electricity and natural gas suppliers allow us to provide unparalleled value for our clients and has resulted in Satori Energy being repeatedly recognized as a leader within the deregulated energy industry.

Founded in 2003 by industry pioneer David C. Wiers, Satori Energy started as an outsourced energy firm serving a single client. Continually growing and evolving with the deregulated energy markets, Satori Energy now employs an extensive team of advisors and analysts that combine for over 125 years of experience in the utility, wholesale trading, retail supply, group purchasing, and energy consulting fields. For additional information, please visit [www.satorienergy.com](http://www.satorienergy.com).

#### **About The Energy Professionals Association**

The Energy Professionals Association (TEPA) supports its members and the energy industry by creating opportunities for energy professionals to network, championing ethical standards and sharing knowledge that will support the integrity of deregulated retail energy markets across the country. For more information about TEPA please visit: [www.tepausa.org](http://www.tepausa.org).
